

Cover Page

This table lists the general information about the techniques used for linking and conditional processing and other objectives of the project.

Tasks	Details
Information Types and elements	I have used a range of DITA information types in this project. I also include codeblocks, notes, tables and hazardstatements.
Hierarchical links	Map and retables
Cross references	xref, conref, conkeyref
Links to DITA and non-DITA resources	HTML web links and PDF
Glossary	I have created a Glossary with the required terms alphabetically
Index	I have created an index with more than 20 terms. 6 terms have been nested and 5 more have synonymous index terms. The Index has been created using conkeyref.
Conditional Processing	I have created a conditional processing file eg
Metadata	Metadata has been used throughout, eg
